PARTNERING TO GIVE YOU **THE EDGE**

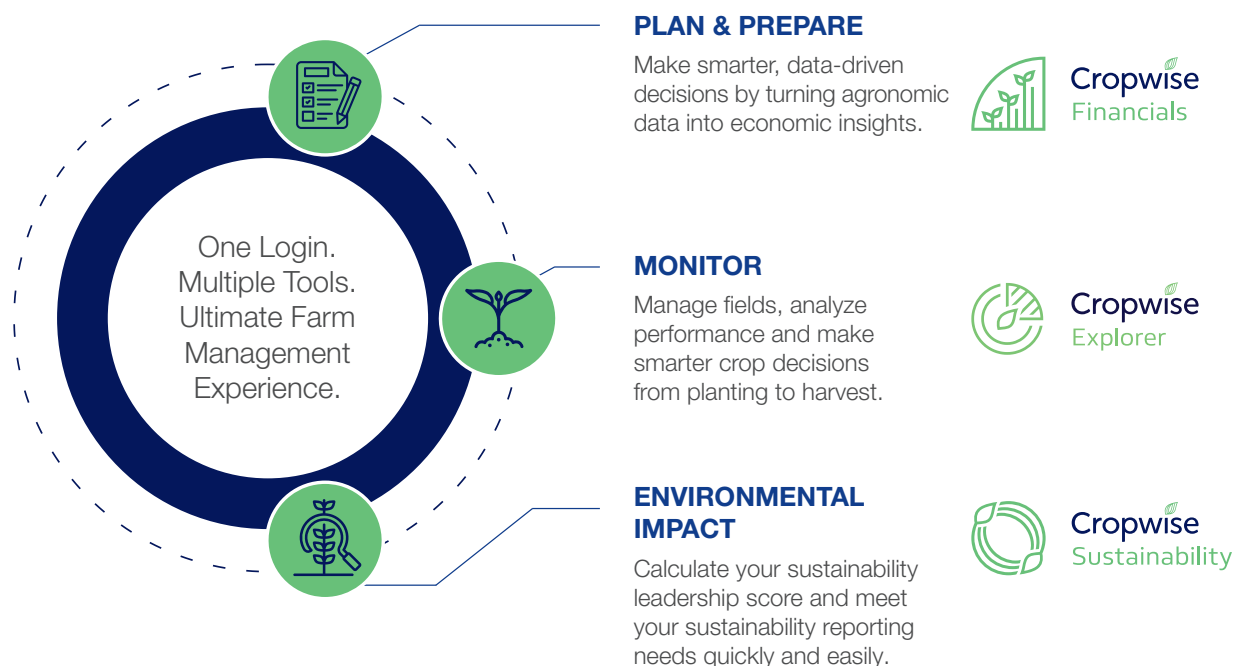

AgriEdge® is a **dedicated agribusiness partnership** that helps you address today's farm management challenges and embrace future seasons' opportunities.

TECHNOLOGY THAT WORKS FOR YOU

Gain access to the Cropwise™ integrated farm management platform, which can help you increase efficiency, identify agronomic problems and generate actionable insights.

CROPWISE: ALL-IN-ONE TECHNOLOGY

Cropwise
Explorer

CONNECT WITH YOUR CROP

Cropwise Explorer leverages historical and in-season crop data to empower you to make data-driven decisions, helping unlock better outcomes and more effective crop management. It is an intuitive and simple tool that doesn't require extensive technical expertise. You can easily visualize your field's data and tailor your practices to the crop's unique needs.

KEY FEATURES:

- **Yield Analysis** – Examines yield at the property and field level to identify areas of low or high productivity and investigate issues and their causes for after-harvest analysis, reporting and planning for next season.
- **Side-by-Side View** – Allows you to visualize crop protection applications and NDVI images on one screen.
- **AI Farm Highlights** – Automatically loads prioritized insights the moment you log on, so you don't need to hunt for the data that matters to your operation.

To learn more about how Cropwise Explorer can fit into your operation, reach out to your AgriEdge specialist or visit **AgriEdge.com**.
