Grubs and turf caterpillars can severely damage lawns if proper preventive action is not taken. This GreenTrust® 365 guarantee program, powered by Acelepryn® liquid insecticide, is the best way to take advantage of the leading, longest-lasting control option for the lawn care market.

Why choose Acelepryn insecticide?

✓ **Longest-lasting** control in the turf industry
  - The only product that can provide long-term prevention of turf caterpillars (including sod webworm, fall armyworm and black cutworm) with one application
  - Greatest flexibility to control grubs, billbugs and caterpillars with one early application ahead of peak adult activity

✓ Backed by a NEW **season-long guarantee** for grubs, turf caterpillars and billbugs

✓ Low use rates

✓ **Free marketing materials** at GrowWithSyngenta.com to help you sell your services with Acelepryn

✓ **No signal word**

✓ **ONLY diamide with no adverse effects** on beneficial organisms such as honey bees*

✓ **96% of lawn care companies** that used Acelepryn rated it as **4 stars or higher** (out of 5 stars)**

✓ **Save up to 21%** on purchases during GreenTrust 365 (Oct 1. – Dec. 8, 2022)
  - To calculate your savings, visit GreenTrust365.com/Calculators

If Acelepryn is applied as outlined in the Guarantee details and a breakthrough occurs from white grubs, caterpillars or billbugs, Syngenta will provide the appropriate product for curative control as outlined below.

## GUARANTEE DETAILS

- Apply a preventive application of Acelepryn liquid insecticide to customers’ lawns **between April 1 – June 30, 2023**

<table>
<thead>
<tr>
<th>Target insect and days of control</th>
<th>Rate per acre</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>✓ 60-day <em>caterpillar</em> control</td>
<td>4 fl. oz.</td>
<td>Apply as a preventive or knockdown treatment</td>
</tr>
<tr>
<td>✓ Season-long <em>white grub</em> control</td>
<td>8 fl. oz.</td>
<td>For white grub control, <strong>apply when adult beetles are active</strong></td>
</tr>
<tr>
<td>✓ 90-day <em>caterpillar</em> control</td>
<td></td>
<td>• Northern U.S.: May – June</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Southern U.S.: April – May</td>
</tr>
<tr>
<td>✓ Season-long <em>billbug</em> control</td>
<td>12 fl. oz.</td>
<td>For billbug control, <strong>apply at first sign of adult activity</strong></td>
</tr>
<tr>
<td>✓ Season-long <em>white grub</em> control</td>
<td></td>
<td>to prevent larval development</td>
</tr>
<tr>
<td>✓ 120-day <em>caterpillar</em> control</td>
<td></td>
<td>• April – May</td>
</tr>
</tbody>
</table>

- Make all applications in at least **2 gallons of water per 1,000 ft²**
- Allow the **spray to dry before irrigation or rainfall**
  - **Irrigate prior to the next mowing** with at least 0.1” of irrigation
- Claims must be filed by **October 1, 2023**
- If a breakthrough occurs, it is at the Syngenta territory manager’s discretion as to what product is provided for rescue treatment and whether the rescue treatment application is broadcast on all acreage or spot treated on affected breakthrough areas
- The Guarantee is limited to providing one recovery application, up to the total acres originally treated, and covers commercial and residential properties throughout the U.S.
