

Stick It to Early-Season Disease with Trebuset Peanuts

A smooth liquid premix powered by ADEPIDYN® technology, Trebuset® Peanuts fungicide seed treatment **protects developing roots, delivers stronger stands** and **optimizes yield potential**. Formulated with five active ingredients found in the Dynasty®, Miravis®, Maxim®, Vibrance® and Apron XL® fungicide brands, Trebuset Peanuts **shuts out key pathogens and diseases, including:**

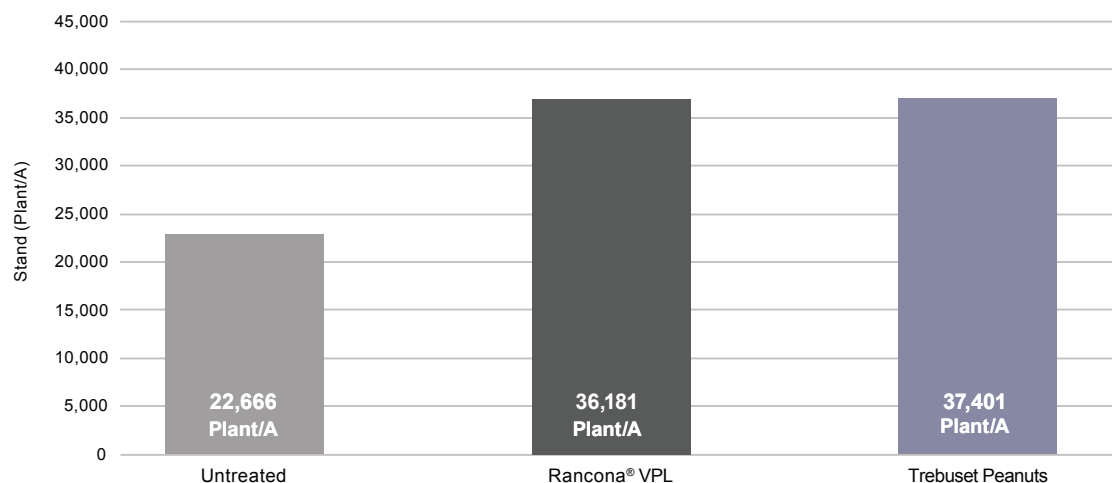

- Cylindrocladium black rot (CBR)
- Stem rot
- Aspergillus crown rot
- *Fusarium*, *Penicillium*, *Pythium* and *Rhizoctonia*
- Fungi causing decay, damping-off and seedling blight

Plus, this liquid solution is tank-mix compatible with a wide range of additives such as colorants, polymers and other fungicides or insecticides, giving you the application flexibility you need for your crops to succeed.

Harness the Power of Five A.I.s:

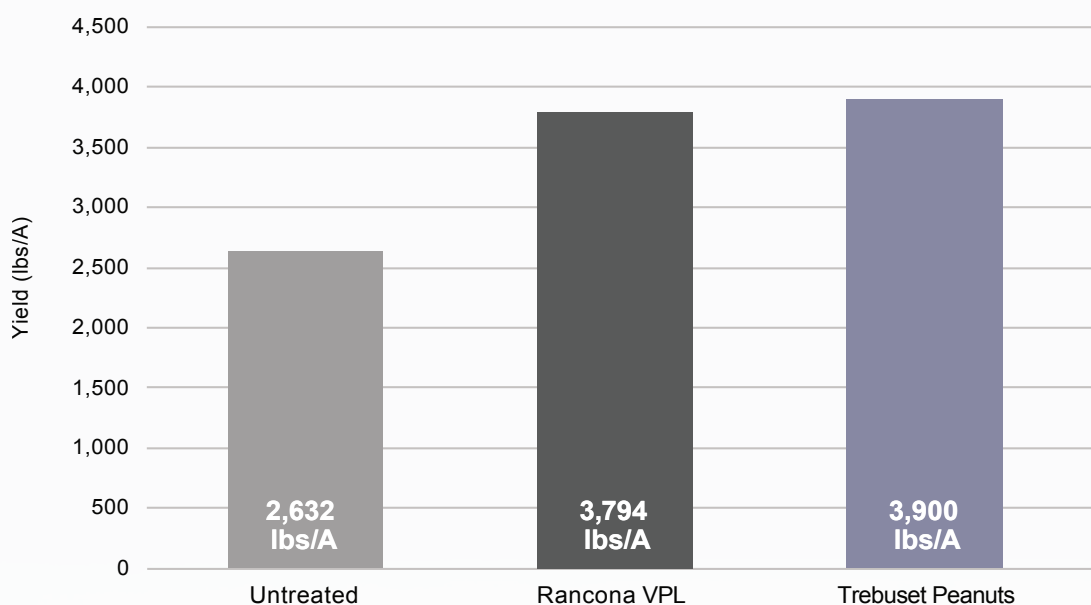

Azoxystrobin	Group 11 strobilurin	disrupts cellular respiration and energy generation
Fludioxonil	Group 12 phenylpyrrole	interferes with osmotic signal transduction
Mefenoxam	Group 4 phenylamide	interferes with fungal RNA synthesis
Pydiflumetofen	Group 7 carboxamide	disrupts cellular respiration and energy generation
Sedaxane	Group 7 carboxamide	disrupts cellular respiration and energy generation
